Projects

- **CVision - Smart Resume Evaluator** April 2025 - June 2025
Coding Club - Even Semester Projects Github | Website
 - Developed a web-based AI resume analyzer using a **Python/Flask** backend, integrating **LangChain** workflow with **Groq LLMs** for accelerated inference; enabled intelligent scoring, job relevance assessment, and CV recommendations.
 - Implemented **Pinecone Vector Database** for **semantic matching** between resume and job description embeddings.
 - Leveraged **MongoDB** to manage candidate metadata and integrated **Cloudinary** for secure resume storage; built personalized dashboards for recruiters to assess candidate-job compatibility and streamline evaluation processes.
 - Containerized the web-app using **Docker** and deployed it to **Azure Container Instances** for scalable, cloud hosting.
 - Tech Stack: **Python, Flask, LangChain, Groq, Pinecone, MongoDB, Cloudinary, Docker, Azure.**
- **MediGuide - Intelligent AI Doctor** April 2025 - June 2025
Coding Club - Even Semester Projects Github | Demo
 - Built a powerful **Falcon-7B** chatbot fine-tuned on **250 MedQuAD** dataset to provide medically accurate responses.
 - Compared Prompt Tuning, **LoRA**, and **QLoRA**; achieved **best perplexity (3.45)** and **ROUGE-L (0.45)** with QLoRA.
 - Optimized adapter size (~18MB) for **4-bit quantized** inference on 16GB GPUs using **PEFT** and **BitsAndBytes**.
 - Tech Stack: **Python, PyTorch, HuggingFace Transformers, Accelerate, PEFT, BitsAndBytes.**
- **AcademiaHub - Academics Mangement System** March 2025 - June 2025
Personal Project Github | Website
 - Designed **custom schema** in **SQL** facilitating comprehensive academic data management system supporting complete **CRUD operations** for student records, course management, and result tracking across multiple relational tables.
 - Built a web interface using **Streamlit** with robust UI design, enabling efficient management of academic workflows.
 - Tech Stack involved: **Python, Streamlit, SQLite.**
- **CodeCrafter - LLM Code Generator** February 2025 - June 2025
Personal Project Github | Website
 - Developed a **agentic pipeline** via **HuggingFace & OpenAI LLMs** with **LangChain** to automate DSA problem solving.
 - Built a dynamic **Streamlit** web app with custom buffer window memory for seamless user interactions; leveraged **Zephyr-7B** and **GPT-3.5-turbo** to extract structured data from natural language and generate clean & structured code.
 - Tech Stack: **Python, Streamlit, HuggingFace Transformers, OpenAI LLMs, LangChain.**

Technical Skills

- **Programming Languages:** Python
- **Gen AI/DL:** Langchain, Hugging Face LLM-Transformers, Pinecone
- **Web Development:** Flask, Streamlit
- **DevOps/Cloud:** Docker*, Azure*
- **Databases/Storage:** MongoDB, MySQL
- **Miscellaneous:** PyTorch*, Github, Git*

KEY COURSES TAKEN

* ELEMENTARY PROFICIENCY

- **Mathematics:** Single and Multi-variable Calculus, Linear Algebra and ODEs, Complex Analysis and PDEs
- **Electronics and Computer Science:** Analog Circuits (Minor), Introduction to Computing, Computing Laboratory
- **MOOCs:** Data Science ML,DL,NLP Bootcamp by Krish Naik, Summer Analytics, Winter Consulting.

Achievements

- **ImpactHacks:** Rank 2 among 500+ teams, organised under *Prayatna*, Socio-welfare fest of IIT Guwahati. 2025
- **Leetcode:** Over 350 + solved. **Top 23 %** of Leetcode users. Maximum rating :**1602** *Leetcode : Sameeran11 | Sameeran4218* 2025
- **JEE Advanced:** Ranked **AIR 4218** among **0.19 million** candidates qualified for the exam. 2023
- **JEE Mains:** Achieved **99.55** percentile among **1.1 million** candidates appearing for the exam. 2023

Position of Responsibility & Extracurriculars

- **Student Coordinator - Public Relations Team, Centre for Career Development, IIT Guwahati** April 2025 - April 2026
- **Inter-Hostel Cultural Competiton:** Won *Bronze Medal* in *Manthan Group Dance* Module. March 2024
- **Inter-Hostel Tech Competition:** Secured *Bronze Medal* in *Kriti Robotics* Module. March 2024
